1(a) Do you agree that the assumptions and/or method set out in the viability report are robust?

Yes No (please tick as appropriate)

(b) If not what is your justification?

2 Do you agree that the viability study represents an appropriate basis for determining the level of CIL that would be viable in the Borough?

Yes No

3 If you support the differential residential rate do you think the boundary between the different zones as shown is an appropriate boundary? If not please say what boundaries should be used instead and your justification for these boundaries.
(Please attach map illustrating your boundary amendments)

To avoid economic & environmental distortions, the mid-range viability area should be moved onto the same rates as those quoted for the higher viability area. Thus the mid-range area would be merged with the higher rate area.

P2

4 Do you agree with the different rates for residential development proposed within each charging zone? If not which do you not agree with and what is your justification?

To provide an incentive for environmental conservation, there should be an extra charge for greenfield development and an allowance for brownfield development.

P3

5(a) If given the choice and subject to any updated Regulations, Do you think that Affordable Housing should be delivered through CIL or through Section 106 Obligations?

CIL Section 106 Obligation

(b) What is your justification for this?

6(a) Do you agree with the proposal to set a flat rate levy for A1, A3 & D1* uses across the whole of the County Borough?

* Excludes all other uses within Class D1 of the Town & Country Planning (Use Class) Order 1987

Yes No

(b) If not what is your justification?

7(a) Do you agree with the different rates for A1, A3 & D1* uses?

Yes No

(b) If not which do you not agree with and what is your justification?

8(b) Do you agree with the proposed £0 charge for B1, B2, B8 and D2 Uses? If not what do you believe the charge should be and what is your justification?

9(a) Do you agree that the proposed level of CIL represents an appropriate balance between the desirability of funding infrastructure through CIL and ensuring that development remains viable?

Yes No

(b) If not, what is your justification for this?

10(a) Do you agree with the Infrastructure List Identified

Yes No

10(b) If not, please specify how the list should be modified and your reason/s for this?

The first priority for use of the funds should be the environs of the development, to the extent that any local amenities will be damaged or require upgrading, and the work would not otherwise be done.

P4

11(a) Do you agree with the use of Discretionary Relief in exceptional circumstances where it can be demonstrated that a Section 106 planning obligation attached to a development exceeds the cost of the CIL amount levied, whereby CIL would have an unacceptable impact on the economic viability of a development?

Yes

No

(b) If not, what is your justification?

12(a) Subject to any updated Regulations it is proposed that a proportion of the net CIL receipts be passed to local communities (e.g. the Town Council or Community Council). Do you agree with this approach?

Yes

No

(b) If so, what do you believe the percentage should be and what is your justification?

See comments at 10(b) above.

Thank you for your comments on Preliminary Draft Charging Schedule & Draft Infrastructure List.
